Brandon Shopp, Group VP of Product, SolarWinds

Brandon Shopp has been our Group Vice President of Product since February 2018. He served as our Director of Product Management since November 2011, assuming the title and responsibilities of Senior Director of Product Management in July 2013. Previously, Shopp was the Vice President of Product Management at AlienVault, from August 2016 until February 2018 and the Senior Director of Products at Embarcadero Technologies, from July 2015 until August 2016. Shopp has a proven success record in product delivery and revenue growth, with a wide variety of software product, business model, M&A, and go-to-market strategies experience. Shopp holds a B.B.A. from Texas A&M University.
