

Jonathan Benett is a business and information technology (IT) leader with over 20 years of experience in leadership, IT program and project management, strategic planning, operations, and corporate business development. He specializes in the identification of public sector business requirements and the development of innovative technology solutions to meet the unique challenges of government.

Jonathan is currently the Technical Director for Digital Government Solutions at Adobe Systems Federal. Prior to Adobe, he was the Chief Enterprise Architect for the U.S. Department of Agriculture (USDA) within the Office of the Chief Information Officer (OCIO). He also worked at the USDA Food and Nutrition Service (FNS) in a variety of leadership roles, including Director of Strategic Initiatives for the Administrator, IT Program Manager for the Supplemental Nutrition Assistance Program (SNAP), Acting CTO, and Acting Deputy Regional Administrator for FNS' Northeast Regional Office. Before working at the USDA, Jonathan led the Project Management Office for the U.S. Patent and Trademark Office, preceded by ten years of successful experience in private industry.
