Dr. Spina joined MITRE in 2014 and has been supporting a multitude of MITRE Federal sponsors including DoD and the IC in the area of Cloud Security. At MITRE, she is a Principal Cybersecurity Engineer, leads the Cloud Security Capability Area, and teaches Cloud Security for the MITRE Institute. Before joining MITRE, she worked for an array of government engineering firms including Hughes Aircraft, SAIC, ManTech, NJVC, and DMI since 1988 where she provided IT systems engineering to a variety of Federal agency missions including those of the Intelligence Community and the DoD.

Mari holds a D.Sc. in Engineering Management from George Washington University, a MSEE from the University of Southern California, and a BSME from California State University Northridge. She is also PMI PMP and ISC2 CISSP, ISSEP, and CCSP certified.
