

Michael Watson is the Chief Information Security Officer for the Commonwealth of Virginia at the Virginia Information Technologies Agency (VITA). With over 17 years of experience working in the information security field, he leads the Commonwealth Security and Risk Management team which provides security governance, oversight, and risk management for the executive, judicial, and legislative branches of government in Virginia.

Michael holds a graduate degree in telecommunications with a focus on security and management from the University of Pennsylvania and earned his undergraduate degree from James Madison University. He is a Certified Information Systems Security Professional (CISSP), incident handler, intrusion analyst, penetration tester, and information systems auditor.
